A real space saver: CLIC&GO water cup Art & Graphic

The CLIC&GO water cup is a useful tool to complement the Art & Graphic range. Its wavy rim acts as a brush rest for up to three brushes - and guarantees to leave the work area clean and tidy. The green beaker can alternatively be used to collect pencil shavings or as a pencil stand. Another very practical feature is that thanks to its folding mechanism the CLIC&GO water cup can be simply stored away for space-saving transport.
