

## Artists' colour pencils and accessories as mixed media gift boxes

It's the perfect gift idea for new, amateur and professional artists. The new mixed media boxes contain all the tools required for one particular mixing technique in one set.

The Polychromos box contains 12 Polychromos colour pencils, the CASTELL 9000 pencil in the HB and 3B hardness variants, a sharpener and an eraser.

For the popular application technique of waterproof Indian ink with watercolour effects, there are 10 water-soluble Albrecht Dürer colour pencils, a brush and three PITT artist pens. The waterproof Indian ink pencils with a variety of brush tips are ideally suited to achieving fascinating accents and finishes.

The practically-shaped tin with see-through lid make the sets ideal for taking with you on your travels. What's more, there's a valuable extra that all budding artists will love. On the rear of the box, there are a number of design ideas and explanations on the individual mixed media techniques. So quick sketches and miniature masterpieces are guaranteed!
