

**Practical companion for on the go:
Colourful lifestyle accessories**

Faber-Castell's range of lifestyle accessories are presented in a colourful and trendy style. The collection, manufactured from the finest Italian calfs leather and carefully worked edge to edge, is now being complemented with two accessories:

As a day-to-day stylish companion, we recommend the **writing set** in A5 format and **square notepad case**. Extra convenient: When opened, both sides lie flat, as the backs have each been sewn separately.

Both accessories are available in various finishes and colours: High-gloss, patent leather, polished several times, shines in pure white, trendy orange and elegant black. Also, the fascinating python snake pattern is striking in look and feel. An extra long interior pen loop keeps your favourite writing instrument at hand at all times for making important notes on the go.

A real eye-catcher is the little **pocket pen** in the style of the note pad case. The twist pencil and ballpoint pen, with its high-gloss, polished shaft and end cap in bright pink, orange or shiny silver, attracts everyone's attention.

The writing case, notepad case and pocket pen are presented in high-quality packaging - a very special gift idea!
