LOOM: Fountain pen added to the range

Brilliant colours and a puristic elegance distinguish the LOOM series of pens and pencils, with their characteristic conical shape. “Metallic” brings a splash of colour to college blocks and desks, while the spring-loaded, chrome-plated clip promises a secure hold on the move. “Piano” embodies classical elegance and a fascinating lifestyle: the polished metal shaft sets off the pure white and black, while the varnish adds a trendy gloss to this series. A fountain pen now completes the range. It has a stainless steel nib and is available in silver, blue, orange and purple as well as in white and black.
