

Brilliant artist pencils: GRAPHITE AQUARELLE and CASTELL 9000 Jumbo

It is environmentally friendly, lasts for hundreds of years and has been prized by famous artists and designers from Vincent van Gogh and Paul Klee to Karl Lagerfeld as an indispensable tool - the pencil. The Art & Graphic range has two further supreme quality innovations to add to its ranks - the watercolour pencils GRAPHITE AQUARELLE and the CASTELL 9000 Jumbo.

The water-soluble pencil GRAPHITE AQUARELLE is ideal for preliminary sketches for watercolour drawings and for complete watercolour techniques in graphite. It features an extra break-resistant 3.3 mm lead and is available in the five hardness grades HB, 2B, 4B, 6B and 8B.

The CASTELL 9000 Jumbo is ideal for anyone who likes a soft pencil and favours smooth writing and drawing with a chunky shaft. The extra sharp graphite tip offers amateur artists and professionals alike a wide variety of line widths with even graphite laydown for writing, sketching and designing. Five grades of hardness (HB, 2B, 4B, 6B and 8B) are available for a range of effects, providing different shades of grey and depth effects.
