Trendy highlights: PITT neon

Multi-faceted, trendy drawing anywhere and anytime – the intelligent PITT neon from the Creative Studio range by Faber-Castell makes it possible. Six new, bright neon colours bring the 80s back to life.

The versatile and flexible pen tip, which keeps its shape even with frequent use, is ideally suited for large-scale drawing, painting and writing. By varying the strokes, even untrained amateur artists can achieve fine lines and dotted details in no time, guaranteed. The PITT neon is filled with highly pigmented and light-resistant water-based drawing ink that dries quickly.
