

Soft and stylish: the on-trend ballpoint pen with a soft refill

Fresh colours for pencil cases: with the SCRIBERO BALL XB and the POLY BALL XB, Faber-Castell is launching a new generation of trendy low-friction ballpoint pens. Their innovative XB refill glides over the paper incredibly smoothly and is therefore ideally suitable for all prolific writers. It is also indelible and of course refillable.

The SCRIBERO BALL XB promises the ultimate in writing pleasure, available in cool black with fresh green, pink or blue. The POLY BALL XB boasts four bright, fashionable colours: pink, orange, blue and green. Both pens are now proving their worth to abundant writers like pupils and students: namely, their ergonomic surface allows fatigue-free writing, especially for long manuscripts.
