The ultimate pencil: Perfect Pencil III with waste box

The Perfect Pencil lives up to its name. There is a pencil sharpener in the cap, which is used to prevent the lead from breaking, and which can act as an extension piece for a more comfortable writing experience. The new Perfect Pencil III is the ultimate pencil on the go, as its protective cap also houses a waste box to catch any pencil shavings. The high quality, smudge-free eraser at the end of the pencil rounds off the Perfect pencil. The black all-rounder is available with a blue, black or blackberry colour waste box.
