Lightweight perfection: the Neo Slim Aluminium

Responding flexibly to business challenges, sketching new ideas with a light hand: the last few months have shown once again how important it is to be adaptable and spontaneous in business and when working from home. Writing instruments with a perfectly minimalist design can provide the decisive inspiration you need: with their particularly slim barrel, the Neo Slim Aluminium ballpoint pens, rollerball pens and fountain pens are the ideal tools for all prolific writers who value attractive visual and tactile effects. It is not only the shape, but also the material of the barrel that gives it an extra-dynamic look: with a brushed matte finish and made from anodised aluminium, the pens gleam with a cool tempered shimmer and lie safely and easily in your hand. The high-quality, curved stainless steel nib of the Neo Slim Aluminium fountain pen guarantees a traditional flow of writing; if you want to be faster on your feet, opt for the ballpoint pen with its document-true cartridge or the rollerball pen with its ceramic tip. A spring-loaded metal clip coated in subtle anthracite means all models in the Slim series can be kept ready to hand at all times.

Neo Slim Aluminium: EUR 35 / EUR 40 / EUR 45
available from December 2020
