

Setting summer highlights with Neon Markers

These new markers are made to show off our personal summer essentials. The bright neon colours will spice up headphones and mobile phone cases and turn our beach bag into a stylish eye-catcher.

The trendy colour names alone whet the appetite for colourful DIY projects: Yellow Me Happy, Little Bit Juicy, Little Red Corvette, Anything Flamingoes, Electric Storm and Karma Chameleon are the names of the six strong neon shades.

All markers can be used on non-absorbent surfaces such as glass, stone, cardboard, plastic and metal, are smudge- and splash-proof and waterproof after fixing in the oven. Their 1.5 mm fibre tip is filled with water-based ink that is odourless. Particularly convenient: no shaking or pumping is necessary to apply the ink.

Neon Marker: **1,80 EUR**
available from June 2021
