

## From fashion to nature: Pitt Artist Pen Dual Markers in new themed sets

The violet, sunny yellow and black of the fashion scene; the iridescent blue-green tones of exotic reptiles: two examples of the phenomenon that certain areas, in addition to their characteristic motifs, also have their own worlds of colour - which on the one hand you automatically associate with them, and on the other hand can inspire you to ever new facets and subtleties of the theme.

To support creative professionals or beginners who want to try their hand at ink, Faber-Castell now presents the popular Pitt Artist Pen Dual Marker in four new theme sets: "Fashion", "Flowers", "Animal" and "Portrait".

Each set contains five artist's ink markers that enable even more creativity and technical perfection thanks to the two different tips: The soft and flexible thick brush tip is suitable for fine to thick lines as well as larger areas, the metal-mounted, 0.8 millimetre thin fibre tip for precise drawing and outlines. The highly pigmented water-based ink is lightfast and does not bleed through the paper - ideal for colourful fashion designs or animal sceneries in sketchbooks.

Pitt Artist Pen Dual Marker ink pen, box of 5 Fashion/Flowers/Animal/Portrait: 20,00 EUR
